Laser Tag has come on a long way in the past few years, and its evolution is continuing – camo'd up outdoors in the Forest! After 6 years in development waiting for the right equipment to finally launch, GO Laser Tag London was born, bringing a brand new way of enjoying this awesome, adrenaline pumping activity to our scenic forest venue, GO Action Forest.

Players are kitted up with Camouflage Ninja Suits, armed with 3 different Laser Tag Guns and will play a multitude of varied game types on our professionally designed Forest Laser Tag arena.

## INTEL FOR PARENTS - FOREST LASER TAG

Being 100% safe and completely 'no-impact' means that players ages 6 and up along with players who don't like the idea of getting hit with a Paintball, can all get fully immersed and have an epic activity without a worry.

This is an outdoor venue so all participants will need to wear comfy clothes, and trainers or boots that they (or you!) do not mind getting muddy. A change of shoes for the children is advisable so they are not going back into cars muddy.

Entry forms will be available on the day for each participant to complete. These will need to be countersigned by a parent or the group organizer (over 18) as a guardian.

Car sharing is strongly advised due to limited parking at the venue itself, and ease of collections at the end of the session.
